TO EACH OF YOU

CELEBRATING A
SPECIAL DAY IN

WARM WEATHER MEANS ALL KINDS OF BUGS

Now that the temps have gotten warmer, you can expect bugs to be outside and inside your home. Here are a few tips to help with any bug problems you might have:

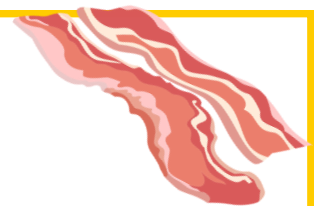

- make sure the screens in windows and doors are in good shape
- check pets that have been outside for any bugs they may carry in
- check yourself and children after being outside
- use insect repellent to help fight off bugs
- be careful at garage sales-check **all** items well before hauling inside—bed bugs & roaches can be easily carried inside-check sacks/boxes
- mosquitos are most active in the early morning and later in the evening
- wear socks and long sleeves
- **most bugs** do not like the smell of peppermint or lavender

Some bugs *can be* a health concern to you or your pet,
prevention is the best solution.

A very special **thank you** to each of you for being patient during this “virus storm”.

We do apologize for any inconvenience we have caused you by putting off all nonessential work orders.

Hopefully, most of the work orders will start being completed in June.

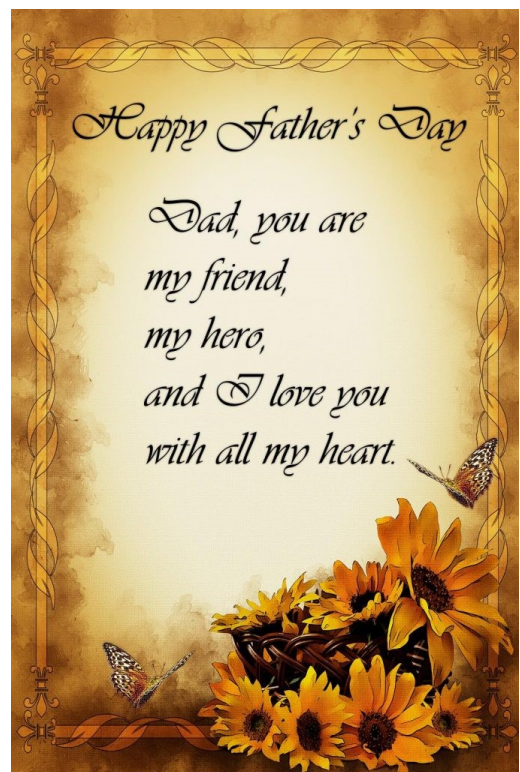

Once again, thank you for your cooperation!
